COLLAR

Our knit collars and cuffs are constructed to lay flat, even after repeated washings. We use a double fold on our collars to eliminate the picky, scratchy feel of exposed raw edges that can sometimes be found on other products.

ZIPPER

We use heavy-duty zippers. The integrity of our zippers eliminates the breakage and splitting associated with inferior quality zippers.

NECK TAPING

Comfort Colors® shirts feature neck taping from shoulder to shoulder. This gives the garment stronger construction, greater comfort and a longer life.

DOUBLE-NEEDLE STITCHING

We use double needle stitching throughout to make our products longer lasting, give better structure and a finished look.
